TERMS OF SALE

1. This is a public auction and mail bid sale, conducted by PONTERIO & ASSOCIATES, INC. Subject to our consent, liberty for bidding by sellers and/or consignors is hereby reserved.
2. A 15% buyers charge will be added to the hammer price of each lot. This charge will be added to all invoices.
3. Subject to paragraph 8, all material shall be sold to the highest bidder as determined by the auctioneer. If any dispute arises during or immediately after the sale of a lot, the auctioneer shall have the right to recall the lot and put it up for sale again. In all cases, auctioneer's decision shall be final. For the bidder's protection, NO "UNLIMITED" or "BUY" BIDS WILL BE ACCEPTED. Bids are to be made in U.S. currency only.
4. Terms of this sale are strictly cash with payment due immediately upon receipt of invoice. Payment by check must be payable in U.S. currency only and drawn on a U.S. Bank. No credit card purchases will be accepted. Title to all lots remains with consignor until paid in full.
5. Minors are expressly forbidden to bid in this sale.
6. Floor bidders and mail bidders not known to us must furnish satisfactory credit references, sufficiently in advance of the sale to allow for checking, or a deposit equal to 25% of their total bids for that session(s) before such bids can be accepted. Deposits submitted will be applied to purchases and any unused portion of such deposit will be promptly refunded.
7. All bids must be per lot as numbered in this catalogue. No lots will be broken. Lots will be sold in their numbered sequence unless auctioneer directs otherwise.
8. We reserve the right to withdraw any lot prior to the sale and to open the bidding on any lot at a reasonable price.
9. All items in this catalogue are guaranteed to be genuine unless specifically stated otherwise in the lot description. Claims to the contrary must be made in writing within three days after receipt of the lot. Any returned lot must be intact and in its original unopened holder. No lot may be returned without prior written consent. In no event may any lot be returned after thirty (30) days from the date of sale. LATE REMITTANCE FOR PURCHASES CONSTITUTES JUST CAUSE TO ABROGATE ALL RETURN PRIVILEGES FOR ANY REASON.
10. Grading is a subjective description, in the opinion of the cataloger, as to the state of preservation of a particular coin or lot. The term "Proof" or "Specimen" is used to describe a method of manufacture, and not a grade or condition. Such terms are the opinion of the cataloger and shall be deemed to be part of the description and not an attribution. No warranty, whether expressed or implied, is made with respect to such adjectival descriptions, which can and vary among experts.
11. This is not an approval sale. Bidders are expected to promptly purchase all lots awarded to them by the auctioneer. Floor bidders are encouraged to carefully examine all lots which they are interested in purchasing, since NO LOTS MAY BE RETURNED BY FLOOR BUYERS, INCLUDING THOSE LOTS WHERE THE BIDDER IS ACTING AS AGENT FOR ANOTHER PARTY, OR BY MAIL BIDDERS WHO HAVE EXAMINED THE LOT PRIOR TO THE SALE.
12. Mail bids will be accepted from those who can not attend the sale in person. Bids for all lots must be submitted in even dollar amounts, or they will be reduced to the next even dollar amount. Successful mail bidders will be awarded the lot at nominal advance over the second highest mail or floor bid. When identical bids are received by the auctioneer for a lot, preference is given to the first bid received. A mail bid will take precedence over an identical floor bid. A floor bidder must bid higher than the highest mail bidder to be awarded any lot. The auctioneer reserves the right to refuse any bids which he, at his sole discretion feels are not made in good faith.
13. The auctioneer can not be responsible for errors in bidding. Please make certain that you bid on the correct lot and that your bid is the maximum that you are willing to pay.
14. An estimate is provided for each lot. This estimate represents, in the opinion of the cataloger, the current market value of the lot. Lots may, of course, sell for above or below this estimate.
15. All photographs in this catalogue are of the actual items being sold.
16. Postage, insurance and sales tax, if required by law to be collected, will be added to the invoice for any lot(s) invoiced to successful bidders. All lots delivered in the state of California are subject to applicable sales tax. Individuals purchasing lots for resale must submit an exemption certificate, signed by the purchaser or his agent and recognized by the state of California, with their current resale certificate number or be subject to the sales tax.
17. We reserve the right to require payment in full before delivering any lot to a successful bidder. It is the buyer's responsibility and obligation to have the lots fully insured while in his/her possession. Risk of loss is on the buyer. All lots sent to foreign countries, including Canada and Mexico, will be billed an additional 1/2 of 1% for insurance. The minimum insurance fee is \$5.00. Please send shipping instructions. Normally all lots will be sent via registered mail.
18. In the event a bidder fails to make remittance promptly, auctioneer reserves the right to resell the merchandise and bidder agrees to pay for the reasonable cost of such a sale and also to pay any difference between the resale price and the previously successful bid.
19. If the invoice for the auction is not paid for in full when due, the unpaid balance will bear interest at the highest rate permitted by law until it is paid in full. If the matter is referred to an attorney for collection, bidder agrees to pay all attorney fees, court costs and other costs incurred by Ponterio & Associates, Inc. The courts of San Diego County, California shall have exclusive jurisdiction and venue over any suit initiated by Ponterio & Associates, Inc. to collect past due invoices and the service of process by certified/registered mail, return receipt requested, shall be sufficient to confer "in personam" jurisdiction over bidder.
20. Auctioneer reserves the right to postpone the sale by auction of the property, for a reasonable period of time, as the result of any act of war, natural calamity or significant relevant event, which, in the judgment of auctioneer, reasonably exercised, make it inadvisable to hold the auction as scheduled.
21. Our ultimate liability for any item is the price paid.
22. By bidding in this sale, bidder personally guarantees payment; if a corporation is the bidder, the officers and/or principals of the corporation agree to personally guarantee payment.
23. All bid sheets submitted by mail bidders must be signed. Company bids must be submitted with the signature of a duly authorized agent of such company.
24. Bidding in this sale constitutes acceptance by the bidder of all the forementioned terms and conditions of sale.

INSTRUCTIONS TO NEW MAIL BIDDERS

Bidding by mail permits you to participate in an auction as though you were attending it in person. The procedure is really quite simple. You tell us what you want, and the maximum amount you are willing to pay. We then, as your personal agent, try to buy the items listed for you at the lowest possible price.

The enclosed mail bid form has two sides for you to fill in. The front side provides all the information we will need to register you as a bidder, execute your bids for you and deliver your lots to you if you are a successful bidder. Please answer all the questions that may apply to you. If you have any special mailing instructions or and/or other instructions, please note them in the "special instructions" area of your bidsheet. **DON'T FORGET TO SIGN YOUR BIDSHEET.**

LOT	BID
#7	\$275
#17	\$500
#113	\$600
#167	\$900

On the back side are pairs of columns where you may list your bids. After carefully reading the lot description, write down the lot number and the maximum amount you are willing to pay for that lot. Don't forget that a 15% buyer's fee will be added to your actual purchase price if you are the lucky bidder. Continue to list lot numbers and bids for each of the lots you are interested in buying.

When we receive your bidsheet, we will record your bids at the amount you have authorized us to bid for you, and we will, in addition, note any lots where an increase is authorized if absolutely needed to win the lot. For example, if the sample bidsheet shown at the right were yours, we would enter your bid on lot #7 as \$275. If yours was the highest bid received, you would be the purchaser at \$275 (plus 15%), and applicable taxes and shipping charges. If the second highest bid received on the lot was substantially less, your bid would be reduced to a "normal" increment above the second-highest bid, just as it would be if you were present at the sale yourself to execute your own bids. If you have authorized a percentage increase on the front side of your bidsheet and the bidding by others has exceeded your basic bid, we will then, as your personal agent, increase your bid to the minimum amount necessary to obtain the lot for you. The authorized increase will never be used except when your basic bid is exceeded.

Before you mail your bidsheet, do be sure to check it over to make certain you have bid on the correct lot(s) and that your bids are the ones you are both willing and able to pay for. Enjoy the catalog, place bids on everything you would like to buy. If time is running out and you feel your bidsheet may arrive too late to be included, you may call our office between the hours of 9:00 a.m. and 5:00 p.m. Monday through Friday, giving us the lot numbers and amount you will pay for each lot, over the telephone. Please make sure you immediately send in your bidsheet for confirmation. Also, you may FAX your bidsheet to us. As your personal agents we wish you every success.

VIEWING OF LOTS

Lots will be available for viewing by prospective bidders at our office each day, Monday through Friday, by **APPOINTMENT ONLY**, between the hours of 9:00 a.m. and 5:00 p.m., January 24, 2000 through February 9, 2000 only. Additionally, all material will be available for viewing at the Long Beach Convention Center.

SWEDISH PLATE MONEY AND THE DANISH EAST INDIAMAN "NICOBAR"

During the 17th and 18th centuries Sweden generally issued coinage which had bullion or metal value equal to face value, with copper normally utilized for Ore denominations and silver for higher value pieces. Unfortunately, Sweden had very limited silver production and had to import silver for coinage needs; Sweden had, however, tremendous resources of copper which could be exported to Amsterdam and other European markets and sold to obtain the desired silver. Warfare between the varied Baltic nation as during these centuries frequently interrupted this trade and Sweden often had to utilize it's copper stock for coin denominations normally of silver. To maintain a "bullion/face" relationship, it was necessary to have a Dalers' worth of copper in a 1 Daler coin, which meant that the value of a silver coin weighing about an ounce was now represented by a heavy copper plate. The Coinage Law of 1644 mandated a coinage of copper plate money with a weight of 1.97 kilograms (5.2 pounds) per daler face value, reduced over the years to .76 kilograms (2 pounds) per Daler by the Coinage Law of 1715, due mainly lower copper mining in Czechoslovakia and Hungary and a related increase in the value of the metal.

How was plate money produced? First, molten copper was poured into a crucible and allowed to cool slowly; while still quite warm it was removed from the crucible and hammered in a rectangular sheet, the measurements depending on the denominations being produced. These sheets were reheated and rehammered several times, then moved to a cutting room where they were cut into standard size rectangles, again depending on the denomination being struck: for instance, a sheet would produce a sheet of 4-4 Daler blanks, a strip of 8- for 2's, 16 (2 rows of 8) for 1's and 32 (4 rows of 8) for 1/2 Dalers. When trimmed to uniform weight, the plates were moved to the stamping room where they were again reheated, then each was placed on an anvil where the center (denomination) punch would be handstruck. The plates were then taken to a water or human-powered hammer where one workman held them above an anvil and another held the die for the corners and as the hammer fell, the plates were rotated until all 4 corners had been struck. Plates were then sent to another area for tabulation and storage.

The first Swedish plate money, issued in 1644, was hardly money of convenience as these plates bore the value of 10 Daler, weighing 19.7 kilograms or 52.5 pounds each, as did the pieces struck the next year. No further plate money was struck until 1649 when 1, 2 and 4 Daler pieces were introduced; these denominations were struck nearly every year to 1768, the last year of plate money production. In 1651, 8 Daler plates were introduced, being produced on an infrequent basis until 1682. The Coinage Act of 1674 authorized the striking of 3 and 5 Daler plates and they were evidently produced only in that year. 1681 saw the introduction of the 1/2 daler plate, which appears to have been produced in every year until plate money was discontinued. Plate money in the denominations of 3, 5, 8 & 10 Daler is quite rare.

Plate money was struck at several different mints, indicated by various markings in the central stamp. Most plate money was produced in the Avesta mint, with the following stamp types: round containing a numeral/DALER/Soffl.Mnt/varied designs (1644-1714), round with a numeral/DALER/SILF MYNT/crossed arrows (1710-15 & 1719-68), a diamond having a numeral/DALER/S:M (1715-17) and triangular containing a numeral/D-shield-S (1718-19). Other markings within the central punch denote the mine from which the copper was obtained, namely Solff.Mnt/star-Garpenberg mint (1710-12), Solff.Mnt/crownedB-Basinge mine (1710-14), SILF.MYNT/G-Gustafsberg Company (1748-52) and SILF.MYNT/V or crowned C-Calsberg Company (1752). Other mints identifiable by the central stamp include Kengis-round with numeral/DALER/Solff.Mynt/ARmonogram (1675-1701) and Stockholm-round with numeral between crowns or lilies/D.S.M./date; corner stamps of these have a legend around crown (1714-16; these plates are made of recycled cannon metal). Plate money from mints other than Avesta or those which indicate the copper source is quite scarce.

The circular corner stamps on plate money identify the ruler and indicate the date of striking, as noted: Christina - *C*R*S date* around crown (1644-45) and legend around crowned date (1649-54); Karl X Gustav - legend around crowned date (1655-60); Karl XI - legend around crowned date (1660-91) and crowned C.R.S. above date (1681-91); Karl XII - legend around crowned date (1702-15), crowned C.R.S. above date (1710-15), crowned monogram amidst date (1715-17) and 3 crowns above date (1718); Ulrika Eleonora - 3 crowns about date (1719) and crowned monogram amidst date (1719-20); Frederik I - crowned FRS above date (1720-50) and Adolf Frederik - crowned AFRS above date (1751-68).

Several additional stamps appear on plate money of Karl XII and denote a revalidation of the legal tender of the pieces. In 1718, he directed that plate money had to be revalidated for continued circulation and a fee was required for this "service"; those without the new stamp would still be allowed to circulate but only at a 30 percent reduction in value. The first of these was a circular stamp with a lion shield and 1718; these were normally applied to the front. Within a short time, Karl called for a second revalidation (with another fee, of course) and a circular stamp with 3 crowns was applied; these appear on front or back. Research has indicated that about 25 percent of the plates held by the public in 1718 had these marks added; plates with the revalidation stamp(s) usually command a premium over the others of the same type. Very shortly after this, Karl decreed a revaluation of 1/2, 1 and 2 Daler plates to 3/4, 1-1/2 and 3 Daler respectively, with another appropriate fee and the appropriate stamps - circular with a numeral/DALER/S.M./1718 applied to the front. These last items are extremely scarce.

Swedish plate money began as a "money of necessity" as the government had to substitute copper for silver in its money. Its size and weight certainly inhibited its widespread use by the average person and most probably never saw much use in Swedish commerce, except as a convenient manner of trading copper as a commodity, but today provides an opportunity of owning examples of Europe's largest money.

The “Nicobar” a cargo vessel owned by the Danish East India Company, sailed from Copenhagen for the Nicobar Islands on June 21, 1782, loading cargo of pig iron and obsolete Swedish plate money in several Swedish ports. Hampered by contrary winds, the ship arrived off the coast of Guinea in January of 1783 where, because of illness among the crew and other staffing needs, the “Nicobar” remained until March 12th when she sailed for South Africa, arriving in False Bay on May 20th. After provisioning and hiring new crew members, “Nicobar” sailed from False Bay on July 10th, encountering rough weather, forcing the captain to sail closer to shore than usual; due to the foul weather conditions “Nicobar” ran aground on a reef a short distance off Quion Point near Cape Agilhas during the morning of the 11th. The ship broke up quickly in the storm and only 11 of 36 aboard were rescued; the cargo and other materials which washed ashore were quickly plundered by the farmers who lived nearby.

On January 4, 1987, Louis Groenwald and Wilfred Chivell, residents of Gansbaal, South Africa, were spear fishing near Quion Point. While swimming in a kelp patch, they noticed what appeared to be a broken anchor and other material on the bottom and as they both had salvage experience, started exploring the site. They found a cannon nearby as well as bars of pig iron and square metal plates. They knew that they had found an old wreck due to the type of cannon and lack of anchor chains and that they needed to identify the ship as soon as possible and obtain permission to salvage it. They took several of the plates with them to assist in their quest as they were the easiest items to remove from the site.

After asking several acquaintances about the plates they were advised that they were Swedish “coins” of the 18th century; they then contacted a local historian who maintained extensive files of area shipwrecks. Upon viewing the plate money, he told them that they had found the “Nicobar” which sank with a cargo of pig iron and copper plate money and that this was the first Danish East Indiaman lost on the “outbound” voyage and rediscovered with its European cargo. Groenwald and Chivell then contacted Ms. Lalou Meltzer, Numismatist of the South Africa Cultural Museum to discuss the importance of the find and for help in filing claims and requests for salvage. Shortly after, permission was received and salvage began; in all, 12 cannons were recovered as were 5,183 pieces of plate money (2,000 or so were now junk fragments due to erosion).

The recovery work on the “Nicobar” provided wonderful information on shipping practices of the 1700’s plus many artifacts for local museums and coin collectors. We sold a major portion of the find for Groenwald and Chivell in our January 1990 Sale #39 and are pleased to offer these plates which they had retained.

“NICOBAR”

The Danish East Indiaman “Nicobar” sailed from Europe with a cargo of pig iron and obsolete Swedish copper plate money in June of 1783. After a lengthy voyage she arrived at False Bay, South Africa in late May 1783, continuing on journey on July 10th. The following day, in rough weather, “Nicobar” ran onto a reef near Cape Agulhas, South Africa; 11 of 36 aboard were rescued. Lots are accompanied by certificates of authenticity. Illustrations of plate money are 1/2 (50%) of actual size.
